## Prof. Dr. AJEET KUMAR LAL MOHAN

*Secretary and Managing Trustee  
AJK Educational Institutions, Coimbatore.*

“

**Our aim is to produce academically strong and talented persons to serve the nation with ethical values.**

”

**E**ven as AJK College of Arts and Science steps into the 10th year of its existence, it is still a long way to go to fulfil quite a few dreams and translate quite a few promises into reality.

In our relentless pursuit of quality and excellence, I am proud to point out that we have done quite a lot of hardwork. Our quest for NAAC Accreditation within just seven years of the birth of the institution itself is quite commendable which even much older institutions have been hesitant to attempt. It was a tough call, but a step in the right direction as this has helped us improve our quality through a cultured and streamlined format. The visit of the NAAC peer team was an enlightening experience not only for the academic heads but also for the faculty and administrative members. This helped the management identify the areas that needed improvement and learn how they could be addressed.

Even as we secured 2.89 on a scale of 4, this exercise has strengthened our resolve to aspire for higher standards for which

we have decided to rededicate ourselves with the co-operation of all the faculty members. Meanwhile, we have launched several inspiring initiatives that would prove extremely beneficial to both the teaching and the learning community. One among them is the formation of an Internal Quality Assurance Cell to ensure not only the quality of the study material that we provide our students but also to follow the entire academic exercise within the prescribed schedule. We have made the teacher himself a system.

Thus, the IQAC would look after the pattern of centralized question paper setting and centralized valuation. Through these two exercises, we are confident that not an iota of misdemeanor could be perpetrated. Besides, the marks of the examinations- whether internal tests or the model examination- could be intimated to the parents within three days of conducting the examination. Thus, the parents would always be kept in the know of the academic progress of their wards.
