Why B.Sc. Computer Science in AJK?

We support the students to Excel in the field of Computer Science by imparting relevant knowledge & practices and inculcating values to transform the students as potential resources contributing innovatively through advanced computing for the society, we develop quality IT professionals with an emphasis on current trends in computer science.

We achieve academic excellence by imparting in-depth knowledge to the students through effective pedagogies and hands on experience on latest tools and technologies. We prepare students to be continuous learners in a connected world and imbibe professional skills and ethical responsibilities in them.

We strengthen the Industry-Academia interface that will help the graduates to emerge as leaders in academics or an inspiring revolutionary in entrepreneurship.

What is B.Sc. Computer Science?

This Programme includes core coursework in computer architecture and programming, data structures, algorithms, and logic and computation. However, given the breadth of the Computer Science discipline, bachelor's programs can differ significantly in terms of focus and available specializations. The main aim of this program is to create quality professionals and research fellows who can work in every sector of the world by implementing the technology of computer systems. It is committed to impart quality education in all fields of Computer Science.

Professional Mentoring

As a part of the curriculum, students are monitored and mentored continuously. Inculcation of good practices, ethics, values, moral, motivation and personal grooming are the key objectives of a mentor. With these initiatives, coupled with the deliverable as mentioned in the previous sections, we believe that global leaders could be created here.

Career counselling & Placement Services

The career counselling service provides unbiased information, advice and guidance to help students understand themselves and the employment market. Later they are supported to plan and prepare for their future by developing suitable career related skills & knowledge. It aims to help students find the career that uses their unique skills & individual experience to the fullest.
